A general-purpose tool set for generic, non-specific, EOD tasks including mines/munition disposal operations. The EOD Non-Magnetic tool kits have been developed in response to the specific requirements of NATO EOD units, and are certified to NATO STANAG 2897 EOD. The EOD Non-Magnetic tool kits give the capability to deal with older unexploded ordnance (UXO) while meeting the challenges of modern and potentially unknown types of weapons and devices. This comprehensive set of non-magnetic and non-sparking tools provides explosives disposal specialists with a definitive, dependable and versatile equipment resource.
